

RUBBER DUCKY READERS

© CSLP

JUNE 1ST - JULY 31ST

Why should babies & toddlers participate in Summer Reading?

Reading readiness begins at birth! Reading, talking, singing, writing, and playing with your child is important for their development. Studies have shown that children who have an environment rich in words, songs, and healthy play enter school ready to learn.

How does it work?

Share the activities often with your child during June and July.

Mark a space each time you do that activity.

Bring this sheet back to the library to receive a small prize & board book!
